

## An Answer Found

to the question of what medicine to keep in your home, ever ready to take, when one of the family succumbs to bad weather or any of the common ills. Because such ills manifest themselves in congestion, which is but another name for acute catarrh of the mucous membranes, through which we breathe and through which our food is absorbed, the first step is to remedy this catarrhal condition.

A medicine that will relieve coughs, colds and grip; that will restore impaired digestion, correct irregular appetite and drive out all that clogs the system, is the one for you.

### WOODBURY

Sickness and Death at Camp Devens Makes Other Boys Downhearted.

Pvt. Morton Atkinson, who is at Camp Devens, has written the following letter to his sister here:

"I received your welcome box and I tell you those apples tasted good. I was on kitchen police all day. I have been firing the cook stove; some cinch, believe me. All I had to do was just kick the wood in and watch it burn. It takes a whole beef and a half of another for the boarders here. Some meat!"

"I am about two weeks behind in my writing and they are coming in every day. I guess I will have to hire a stenographer to catch up. I have been pretty nearly three weeks and I have drilled three days in all, and those weren't all day. It was only half of a day at a time. The rest of the time I laid around and slept."

"I am afraid that the Kaiser is going to get licked. \* \* \* We were issued our sweaters to-night and I sent the payroll yesterday. Say, I could write all night, I have so much to tell."

"There were 20 died here the other night with influenza, and I tell you it was a pretty hard sight to see the hearse and then the boys' mothers going down the street with the fife and drum corps leading them. They take the coffin on their shoulders, with the American flag tied around it, and the drum corps are good ones to lead. It almost made me cry. I was so homesick for a while. Gee! but it will seem good to get home after the war. There are a lot of homesick boys here for one fellow to cheer up."

"There was a little fellow here who would weigh about 98 pounds, and he was all in. The doctor came down and he said, 'What is the matter with you?' and the poor little fellow said he was tired. The doctor asked him what he had been doing and he said he had been drilling with a gun, so the doctor sent him down somewhere where he could go to school. I asked him if I could go to school and he said, 'You are the ruggedest looking chap in this company,' so I guess I will have to stay here. I have gained two pounds in three weeks."
